Subject: Label Amendment – Adding supplemental label for Sesame use
Product Name: CAPAROL 4L HERBICIDE
EPA Registration Number: 100-620
Application Date: February 26, 2018
Decision Number: 539389

Dear Ms. Moore:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

6-(methylthio)-s-triazine 44.4%

Other Ingredients: 55.6%

Total: 100.0%

Caparol 4L contains 4 lb active ingredient per gallon.

Shake well before using.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

EPA Reg. No. 100-620

All applicable directions, restrictions and precautions on the EPA registered label are to be followed. Read the label affixed to the container for Caparol 4L before applying. Use of Caparol 4L according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Caparol 4L. Before using Caparol 4L as permitted according to this supplemental label, read and follow all applicable directions, restrictions, and precautions on the EPA registered label on or attached to the pesticide product container. This Supplemental Labeling contains revised use instructions and or restrictions that may be different from those that appear on the container label. This Supplemental Labeling must be in the possession of the user at the time of pesticide application. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE

Sesame

Make a single post banded application directed to the soil and lower 3 inches of sesame plants a minimum of 12 inches tall. Apply 2 pints per acre by ground using an application volume of 15-40 gallons of water per acre.

When applying to emerged weeds add 2 qt of a nonionic surfactant (NIS) to 100 gal of spray mixture (0.5% v/v) or 1 gal of a non-phytotoxic crop oil concentrate (COC) to 100 gal of spray mixture (1% v/v).

Restrictions: (1) Do not apply within 75 days of sesame harvest. (2) Do not exceed 2 pints per acre of Caparol 4L Herbicide per year.
